

ACTIVITY OVERVIEW

You would never expect a goat to be in a tree, much less a “sheep” in your family tree, but that’s just what you will discover in this activity. Like the Good Shepherd finding His lost sheep, you will find data sets and attach sources to real people. Use the reverse hint button labeled with a peg person. Grab a map, a dart, and some computers to get started!

THE PURPOSE

- Make it possible for God’s children to have their ordinances done
- Help gather Israel by finding “lost sheep”
- Get more familiar using the tools on FamilySearch.org

“The spirit world is full of spirits who are anxiously awaiting for us to perform these earthly ordinances for them...”
-Spencer W. Kimball

FIND LOST SHEEP

FHE IN A BOX 2024
